

MICROSOFT COPILOT ENABLAMENT

COPILOT-AS-A-SERVICE

MICROSOFT COPILOT ADOPTION BOOSTER

THE CHALLENGE

Microsoft 365 Copilot adoption needs more than a launch

Organizations need a repeatable model that keeps users informed, engaged, and supported after rollout, with content, community formats, change management, and measurable insights.

Content gaps

Users lack practical, role-relevant guidance.

Open questions

Teams need a place to ask, learn, and share.

Change fatigue

Adoption needs structure, not ad-hoc activities.

No KPI visibility

Leaders need insights to steer adoption.

THE SOLUTION

A flexible, modular enablement package for sustainable Copilot value

Experts Inside **Copilot-as-a-Service** is built from modular services that can be selected individually or combined into one continuous adoption model, covering enablement content, community activation, and structured user adoption change management.

BUSINESS IMPACT

Tangible Results

Clear insights

Monthly KPIs and adoption recommendations

Active community

Recurring sessions, challenges & success stories

Fresh guidance

Relevant updates, guides, prompts, and training assets

Choose your modules
